

Selecting Hill Physicians with PacifiCare by United Healthcare*

During **Open Enrollment**, your HMO will ask you to select a **Primary Care Provider**, or PCP. When you make that selection, you'll be asked for the doctor's **Identification Number**. This is a unique number that not only identifies the doctor; it also indicates his or her medical group affiliation. Some doctors have several numbers so look for the one that enrolls you with Hill Physicians. If you don't, your HMO may assign you to another medical group. Although this will not affect your plan's benefits, it may impact your overall experience because medical groups provide different resources and have different administrative procedures.

Hill Physicians members enjoy the ability to self-refer within our network for vision, mental health and OB/GYN services, get discounts on yoga and massage services, free teleclasses, audio and video podcasts, a comprehensive health library and may qualify for nutritional, acupuncture and chiropractic services. The tips below will help you **Get More with Hill Physicians**.
