FOR IMMEDIATE RELEASE

**PriMed Awarded Healthiest Employer Award
Hill Physicians Medical Group's Management Company Best in Area for Fourth Year in a Row**

SAN RAMON, CA (September 11, 2017) – PriMed Management Consulting Services, Inc., the management services company for Hill Physicians Medical Group, was recently named the 2017 Healthiest Employer by the *San Francisco Business Times*. This marks the fourth consecutive year the company has topped the list in the large company category (500-1,999 employees).

“It is truly an honor to receive the Healthiest Employer award. We’ve always placed a high priority on wellness, as we know that when an employee is well – mind, body, and spirit – then that person feels valued and balanced. That ultimately contributes to a more engaged employee,” said Tom Gergley, Wellness Program Manager of PriMed.

As part of its wellness initiatives, PriMed rewards employees who participate in biometric screenings and actively follow healthy living recommendations. At company headquarters in San Ramon, and in their Sacramento and Stockton regional offices, employees can participate in a variety of wellness activities including meditation, yoga, massage therapy, and educational seminars.

The Healthiest Employer award is scored across six categories: culture and leadership commitment, foundational components, strategic planning, communication and marketing, programming and interventions, and reporting and analytics. Completed assessments are ranked with the proprietary Healthiest Employer Index, a 1-100 metric for wellness programming. This year PriMed received the highest Healthiest Employer Index score among employers of similar and larger size.

“We are proud to be consistently recognized for this award,” said David Joyner, CEO for PriMed. “Our employees are the foundation of our business, so creating opportunities to help them live happier and healthier and reduce stress is a top priority. This award is a clear demonstration of our commitment to making our workplace and our employees healthier.”
